Bibhor Baral says:

"To say about the online literature, I had not got chance to visit even a single web site till my ISC. In bachelor I took BIM (Bachelor in information management) which is 4 years IT cum Management course of TU. Then onwards I became familiar with the cyber world. I discovered many sites dedicated to literature. paradesh, suskera, ipatra etc introduced a new dimension of literature to me. Being inspired from them I too built a site about Nepali literature (geocities.com/nepaliliterature). Once paradesh.com had announced for a poem competition where the same poem "Ma muk darsak" got the first position. This poem seems very lucky for me. Apart from that my few poems have been published in paradesh.com and some in the sites that I have built by myself like- nepalbizz.com, geocities.com/nepaliliterature etc. The award has now inspired me to accelerate it."

"I love my country and it is the art, culture and literature that has made my country unique from rest of the world. I want to serve Nepali literature but single handedly I am not able to do any major contribution. I would think myself very lucky if I could get chance to help International Nepali Literary Society for your very noble reason of enhancing Nepali Literature. Once again thank you very much for awarding me."
